The Best Snowman Ever

Reading Passages
And Questions

Jimmy could see the snow falling outside! He saw it coming down, down, down. Mom said after breakfast he could go outside to build a snowman. He hurried as fast as he could to finish breakfast, and get on his snow suit. He ran outside.

To make a snowman, he rolled, and rolled, and rolled snow to make a big ball for the base. He rolled another ball for the body. Then he rolled a smaller ball for the head. Jimmy looked all around to find something to make eyes, a nose, and a mouth. He found two rocks for eyes. He found a stick for the nose, and he found some old buttons for a mouth. He put two long sticks in the sides for arms. He took his own hat off and put it on the snowman!

When Jimmy stepped back to look at his snowman, he thought it was the best snowman ever! And it was, because it smiled back at him with its toothy button smile.
