DAY 1

Draw Your Own Map

Instructions:

- 1) Label the Compass Rose
- 2) Include 5 items on your Map Key (symbols)
- 3) Title
- 4) Scale

A large rectangular box for drawing a map. Inside the box, there is a horizontal line near the top left. At the bottom left, there is a scale bar consisting of a horizontal line with vertical end caps, followed by the text "Scale: 1 inch = _____ miles". At the bottom right, there is a rectangular area for a key or legend, with a header box containing the text "KEY / LEGEND".

Name _____

September 11th

September 11th is a very sensitive day in America. In 2001, there were terrorist attacks on America. Four airplanes were hijacked by terrorists. They attacked the pilots and crew and took over flying the planes. They used the planes as weapons. Two of the airplanes were flown into the World Trade Centers known as the Twin Towers. These were two identical buildings in New York City. A third airplane crashed into the Pentagon in Washington, D.C. The fourth plane was intended to hit another building. The passengers on the fourth plane stopped the hijackers. Unfortunately, it crashed in an open field in Pennsylvania.

So why did the hijackers do this? Many say they resented the United States beliefs, rights, and freedoms. Some people say that they did this to give us fear.

Many men and women lost their lives in this attack. Hundreds of citizens, police, and firemen perished. Across America, the Heroes of 9/11 are honored and remembered by a moment of silence. In all work places, schools, television, and radio the news will honor the day. The media discusses the tragedy throughout the week. They use documentaries, specials, and interviews to teach others. Leaders will give speeches honoring the heroes. All flags throughout the country are at half staff on 9/11.
